## Professional Summary

---

Full-Stack Developer with hands-on experience building and deploying production-ready web applications using Python and JavaScript. Developed real-world platforms including a job portal with resume upload, dashboards, and API-driven job search, leveraging Flask, React, Node.js, Express, and MongoDB.

## Experience

---

### Web Developer - KODBUD

August 2025 – Sep 2025

#### Internship

- Developed responsive web applications using HTML, CSS, JavaScript, and React.js.
- Implemented asynchronous operations with Promises and async/await for smooth data flow.
- Refactored React components to reduce unnecessary re-renders and improve UI responsiveness.

### Python Developer — OWL AI

June 2025- August 2025

#### Project-Based Learning

IET, Lucknow

- Contributed to AI-driven software solutions and built web scraping tools using Selenium to extract structured data.
- Developed a Library Management System using Django, implementing full CRUD operations and user authentication.

## Projects

---

### QuickKart – E-commerce Web App | *React.js, JavaScript (ES6+), HTML5, CSS3* ([Live Project](#))

- Designed and developed a responsive e-commerce frontend with product listings, cart functionality, and smooth UI interactions using React.js.
- Implemented component-based architecture, state management, and dynamic rendering for scalable UI development.
- Focused on mobile-first design and performance optimization for fast page load and better user experience.

### Voice Assistant Bot (Python-Based Application) | *Python, Speech Recognition, Text-to-Speech, APIs* ([Project Link](#))

- Developed a Python-based voice assistant capable of understanding spoken commands.
- Implemented speech recognition to process user input and trigger task-specific actions.
- Integrated external APIs to fetch real-time information and automate common user tasks.
- Designed modular backend logic to ensure scalability, clean command handling, and easy feature expansion.

### Career-Friendly – Job Portal | *React.js, JavaScript (ES6+), HTML5, CSS3, Node.js, Express.js, MongoDB*

- Role: Project Co-Lead (Frontend) ([Live Project](#))
- Designed and developed responsive UI components using React.js for job listings, user profiles, and dashboards.
- Implemented client-side routing, state management, and reusable components to improve performance and maintainability.
- Integrated RESTful APIs for job search, resume upload, and application tracking.
- Ensured mobile-first design and cross-browser compatibility using modern CSS practices.

## Technical Skills & Tools

---

**Programming Languages:** JavaScript, Python

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js

**Backend:** Node.js, Express.js, Python (Flask), REST APIs

**Libraries & Frameworks:** React.js, Express.js, Bootstrap, Tailwind CSS

**Databases:** MySQL, MongoDB

**Tools:** Git, GitHub, VS Code, Postman, Selenium WebDriver

**Other Skills:** Responsive Web Design, API Integration, Debugging

## Education

---

**Institute of Engineering and Technology (IET), Lucknow**

CGPA: 7.68

*Master of Computer Applications (MCA)*

**University of Delhi**

70%

*B.Sc. (Hons) Physics*

## Certifications

---

Web Developer Intern — KODBUD

Python Developer Intern — OWL AI
